Best Practices (2021-22)

Best Practice - I

1. Title :

Contribution in Global Pandemic Covid-19

2. Objectives :

1. To raise awareness about covid-19 pandemic and measures need to be taken for it.
2. To inculcate values of social and moral responsibility among students.
3. To support the needy people in the weaker sections of human community like senior citizen, old age people, divyangjan, poor women etc.
4. To organise vaccination camp in the college campus.
5. To develop craftsmanship skill in the students.
7. To help old age people and divyangjan by giving psychological support and assistant in this difficult time.

3. The Context:

As the part of social responsibility to the human community, the teachers and office staff members of the institution have made various contribution to help the needy people. The impact of pandemic is being raised in II phase in 2021-2022. In the year 2021-22, Support, help and contribution were needed by the people from marginalized society. So Institute has initiated this practice to commemorate the social responsibility.

4. The Practice :

In the II phase of pandemic impact of Covid-19 was on peak point. For protection the use of mask and sanitizer was essential the college has initiated to organise vaccination camp to protect the needy people. The last year the NSS volunteers made door to door visit for providing arsenic medicine to building the immunity of the people. This year in 2021-2022 the college organized vaccination camp with the help of medical authority twice in the year i.e. 8th Sept. 2021 and 29th Oct. 2021. The college helps the people for their proper vaccination.

The college students and staff tried to supply meals to needy people. They made awareness among the society for the protection from Covid-19.

The students also conducted a project survey by going home to home for noticing the people about the vaccination camp organised in the college. They identified the corona patients and make them proper quarantine to stop the spreading of corona virus and to get them vaccinated.

5. Evidence of success :

Many poor and needy people were benefited to cope up with difficult situation which created by the Covid-19 pandemic. They got psychological support and help. They were given education about this pandemic and its preventive measures. These activities have helped them in abolishing stereotypes about themselves. They could get little bit of financial help in the difficult time. The college played a successful role in getting the people vaccinated.

6. Problems Encountered and Resources Required

Many restrictions were imposed by the government hence there were many limitations in conduction programs. Many students couldn't join us as traveling facilities were limited. Due to Covid-19 pandemic, students couldn't participate in these social activities in large numbers.

Poor and needy people, old aged people, corona warriors, students' volunteers, medical practitioners, blood donors, blood donation kits, ration, masks, sanitizers, fruits etc are the resources needed to carry out this practice. The village people had many false illusions about the vaccination. They needed proper counseling.

1st Covid-19 Vaccination Camp organized on 8th Sept. 2021

Report

कोविड लसीकरण शिबीर अहवाल

स्व.दत्तात्रय पुसदकर कला महाविद्यालयाच्या वतीने कोरोना महामारीच्या संकटापासून लोकांचे संरक्षण करण्यासाठी महाविद्यालयात 8 सप्टेंबर 2021 रोजी कोविड लसीकरण शिबिराचे आयोजन करण्यात आले. कोरोनाच्या भीषण आपत्तीच्या काळात या भीषण संकटापासून स्वतःला वाचविण्यासाठी कोविड लस घेणे अत्यंत आवश्यक झाले होते. अशा स्थितीत ग्रामीण भागातील लोकांना व महाविद्यालयातील मुला मुलींना लसींच्या तुटवड्यामुळे सुरुवातीच्या काळात लस मिळणे अडचणीचे झाले होते. ही स्थिती लक्षात घेऊन महाविद्यालयाने विशेष प्रयत्न करून 8 सप्टेंबर 2021 रोजी माऊली जहागीर येथील प्राथमिक आरोग्य केंद्राच्या सहकार्याने लसीकरण शिबिराचे आयोजन केले.

या लसीकरण शिबिराचे उद्घाटन माऊली जहागीर येथील प्राथमिक आरोग्य केंद्राचे वैद्यकीय अधिकारी डॉ. रवींद्र शिरसाठ यांच्या शुभहस्ते झाले. कार्यक्रमाचे अध्यक्षस्थानी महाविद्यालयाचे प्राचार्य डॉ. विजय दरणे हे होते. तर प्रमुख पाहुणे म्हणून पत्रकार मंगेश तायडे उपस्थित होते. या कार्यक्रमाप्रसंगी कोरोना काळात विशेष सेवा देणाऱ्या वैद्यकीय कर्मचार्यांचा महाविद्यालयाच्या वतीने सत्कार करण्यात आला.

या लसीकरण शिबिरात महाविद्यालयातील व महाविद्यालय लगतच्या आजूबाजूच्या परिसरातील एकूण 170 लोकांना कोविड लस देण्यात आली. कोरोनाच्या संकटापासून स्वतःला वाचविण्याच्या दृष्टीने ही लस लोकांना उपयोगी ठरली. या शिबिराच्या यशस्वीतेसाठी प्राथमिक आरोग्य केंद्र माहुलीचे वैद्यकीय अधिकारी व त्यांचे कर्मचारी यांच्यासोबतच महाविद्यालयाचे प्राचार्य आणि सर्व प्राध्यापक व शिक्षकेतर कर्मचार्यांनी विशेष परिश्रम घेतले.

Report

दुसरे कोविड लसीकरण शिबिर अहवाल

स्व. दत्तात्रय पुसदकर कला महाविद्यालयाच्या वतीने कोरोना महामारी पासून लोकांचे संरक्षण करण्याच्या हेतूने 29 ऑक्टोबर 2021 रोजी दुसऱ्यांदा महाविद्यालयात कोविड लसीकरण शिबिराचे आयोजन करण्यात आले.

नांदगाव पेठ येथील प्राथमिक आरोग्य केंद्राच्या सहकार्याने महाविद्यालयातील विद्यार्थ्यांसाठी व नागरिकांसाठी सदर लसीकरण शिबिराचे आयोजन करण्यात आले. या लसीकरण शिबिरात एकूण शंभर पेक्षा जास्त लोकांचे लसीकरण करण्यात आले. या लसीकरणामुळे कोरोनाच्या संकटापासून स्वतःला वाचविणे लोकांना शक्य झाले. ग्रामीण भागातील महाविद्यालयाच्या परिसरातील नागरिक व महाविद्यालयाचे विद्यार्थी यांना अनेक कारणामुळे प्राथमिक आरोग्य केंद्रात किंवा शहरात जाऊन स्वतःचे लसीकरण करून घेणे कठीण जात असल्यामुळे या नागरिकांच्या व विद्यार्थ्यांच्या सोयीसाठी महाविद्यालयाने दुसऱ्यांदा या लसीकरण शिबिराचे आयोजन केले. या लसीकरण शिबिराचा फायदा अनेकांनी घेतला.

सदर शिबिराचे आयोजन महाविद्यालयाचे प्राचार्य डॉ. विजय दरणे यांच्या मार्गदर्शनाखाली राष्ट्रीय सेवा योजना कार्यक्रमाधिकारी डॉ. गोविंद तिरमनवार, महिला कार्यक्रमाधिकारी डॉ. सुनिता बाळापुरे, सह कार्यक्रमाधिकारी डॉ. सुभाष पवार यांच्या पुढाकाराने आणि महाविद्यालयातील सर्व प्राध्यापक व शिक्षकेतर कर्मचारी यांच्या सहकार्याने यशस्वी करण्यात आले.

Best Practices (2021-22)

Best Practice - II

1. Title :

Go Green : An Eco-Friendly Programme

2. Objectives :

1. To make environmental awareness among the students.
2. To conduct environment awareness campaign and motivational programme.
3. To promote the protection and conservation of the environment.
4. To prevent the use of plastic.
5. To make a proper management of waste products.
6. To organize rallies street plays for the awareness.
7. To promote the use of natural resources.
8. To introduce paperless work.
9. To make the Green, Environment and Energy audit of the institution.

3. The Context:

Global warming makes a hazardous effects on human life. Day to day man has to face scarcity of water, oxygen and good atmosphere. If there is no any awareness of ecology, human life will be in danger. Human is directly and indirectly responsible for the downfall of ecology. From exploitation of nature to the pollution created environment is in hazardous condition. To grow with green has become a need of the day. Educating people about eco-friendly practices should be our priority. The strategies need to be incorporated into the institutional planning with the aim of developing a green environment among the campus.

4. The Practice :

To save the electricity LED's and CFL have been installed in the college. To shut fans and lights when not needed is our regular practice and such type of slogans are display in the college building.

To increase the ground water level it is necessary to save rain water by water harvesting system. Keeping this objective the rainwater harvesting unit has been setup in the campus. The rainfall in tarrace is redirected towards borewell to increase its water level.

In order to protect the environment the college is practicing paperless work. All departments including administrative block are computer based and the data is maintained on computers.

The use of plastic is strictly prohibited in the campus. The students are instructed not to use plastics outside the campus also. To neutrilize the carbon in the air more tree plantation is made in the campus. it is known that more oxygen is generated by the Tulsi plants, therefore the bed of Tulsi plant is prepare.

In order to calculate the natural resources available in the institution the college help to make green, environmental and energy audit to the private consultancy.

5. Evidence of success :

- The prohibition of plastic use helps to make the campus clean and it helps to balance to eco-system.
- Plantation of more and more trees, tulsi plants make the atmosphere healthy.
- Due to the implementation of rainwater harvesting unit, the level of ground water increased.
- The Green, Environment and Energy audit helps to conserve the natural resources available in the campus.
- The use of LED's has also led to the saving of electricity bill and the electric consumption has been reduced.
- Maintaining the data on computer leads to reduce paper work which helps to protect the trees from cutting.

6. Problems Encountered and Resources Required

People are still not ready to leave the use of plastic. Because of LED's are more costly than bulbs, it is difficult to make awareness of use of LED's. To manage financial support in establishing rainwater harvesting unit becomes difficult. It is difficult to turn the mindset of the peoples towards Go-Green.
